DETAILED ACTION

1. Applicant's election without traverse of Group 1 in Paper No. 11 is acknowledged.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 47 and 48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 47 is vague and indefinite because the nitrogen atom of the base which is linked to the C-1 of the ribose ring contains 4 bonds, which make it positively charged. However, the positive charge is missing in the formula.

Claims 47 and 48 are vague and indefinite because it is unclear of what is meant by "coupled labeled moiety". It is unclear to what the label is coupled with.

3. The references, lined through in the PTO-149, were not considered because they were not available in the parent case 08/882,649.
